TO: Hiroki Kobayashi
RE: FY27 Fast Track Awards

Dear Hiroki,

Congratulations! You have been awarded a Translational Neuroscience Trainee Fast Track grant to support your research in the amount of $10,000 that must be used during current FY27 fiscal year (from now till 06/30/2027). You can immediately begin use of these funds and work with either Denise Fellows or Jeniece Morales (cc'd to this email) to order and track your purchases. If possible, please purchase items prior to May 1, 2027 so that all expenditures will hit the FY27 funding cycle. If you need to purchase items after May 1, please contact Denise or Jeniece directly for assistance with the purchase. Remember that a final report is due by the end of the fiscal year describing your use of the funds. I wish you continued success with your research project and look forward to hearing about your progress.

Sincerely,

Robert Bowser, Ph.D.
Chief Scientific Officer
Professor and Chair, Department of Translational Neuroscience
